# Colon Hydrotherapy

Colon Hydrotherapy is an effective and safe procedure to eliminate digestive waste, which leads to a build-up of toxins from the colon, and that too without the use of medication or supplementation. The colon is gently rinsed with filtered warm water that softens the faecal matter and promotes peristalsis. This detoxifies the colon and removes faeces, excess mucus, harmful toxins, and other effluents.

Faecal matter contains toxins, and if it remains in the colon for elongated periods, can lead to serious health issues. These toxins can penetrate the colon walls and enter the bloodstream resulting in inflammation, bloating, and other illnesses, and impair the assimilation and absorption of essential minerals. Stagnated faecal waste inhibits peristalsis and leads to constipation or irregular bowel movement which further causes numerous other health issues.

## What is in it for me?

Yes, we are talking about the benefits!!

Due to the non-judicious use of antibiotics and antibacterial products, and consumption of unhealthy foods, we impair our Intestinal flora which disrupts our gut health. Colonics offer myriads of benefits.

- Better Digestion
- Radiant skin
- Weight loss
- Better concentration
- Reduction in anxiety
- Improved immune system
- Reduced risk of colon cancer
- Improves nutrient absorption
- Prevents constipation & improves muscle tone

## FAQs

### IS IT SAFE?

It is safe. The water is introduced at a low gentle pressure, which is even lower than the pressure that stools exert on the bowel wall.

### DOES IT HURT?

The colonic irrigation treatment itself does not cause pain. At the start of the procedure, you may experience a "strange" sensation of wanting to go to the toilet, but most people get used to this feeling in the first few minutes, and even find the colonic treatment unexpectedly relaxing and uplifting.

“**Chemical free colon hydrotherapy is the only way to keep your gut healthy**”

### HOW MANY TREATMENTS DO I NEED?

It all depends on your condition and on the results of the first colonic. If a condition has been building up for years, it is unlikely that it will disappear completely after 40-50 minutes of cleansing, but most people feel improvements after the very first session. Colonic hydrotherapy, unlike the use of laxatives, is not habit forming and improves the tone of the colon.

### WHAT WILL I FEEL LIKE AFTER THE TREATMENT?

After a colonic, you should be able to continue with your daily plans, drive, go back to work etc. Some people feel energised straight away, some feel tired "in a nice way", some feel lighter, some feel very hungry, and some don't feel like eating afterwards.
